

Hamaton e Tyresure hanno rilasciato il catalogo prodotti TPMS aggiornato per il 2024. Disponibili in inglese, tedesco, francese e spagnolo e contenente gli ultimi sviluppi nella tecnologia dei sensori TPMS e degli strumenti diagnostici, i cataloghi sono il modo più pratico per ottenere tutte le informazioni sui prodotti e per prendere decisioni informate sull'acquisto di TPMS.

Il catalogo 2024 dei due brand include una nuova sezione dedicata ai prodotti per veicoli commerciali Tyresure, inclusi i nuovi sensori EU-Pro Truck 1.0, progettati per adattarsi perfettamente al cambio pneumatici dei veicoli commerciali e all'aggiornamento degli strumenti diagnostici.

Nei cataloghi sono disponibili anche delle offerte per pacchetti che combinano gli strumenti diagnostici TPMS H47 o H57 con 8, 16 o 24 sensori ibridi 3.5 configurabili e programmabili.

E' possibile scaricare la copia digitale delle brochure ai seguenti link: [Hamaton TPMS](#) e [Tyresure TPMS](#).
